

PRE-MAJORS AND STUDY TRACKS

Pre-major agreements for certain areas of study are available in the Advising Center in Room 303 Phillips. These agreements have been developed through negotiations between the university and the community college faculty and made specific for Durham Tech students. They serve as a blueprint for guiding community college students in selecting courses appropriate to their selected major. Students who successfully complete the courses of study as defined by the pre-major agreements and who meet the requirements for admission to the university are eligible to apply for admission to the major with junior standing. **These agreements are meant as a guide. The student should not assume that it addresses unique requirements set by his or her university of choice. It is the student's responsibility to become aware of individual requirements of the senior institution and to make course substitutions as warranted, within the requirements of the AA Plan-of-Study.**

Also available are study-tracks. A study-track is a listing of courses that either the faculty at Durham Tech recommends as appropriate for a pre-professional degree or has been developed in collaboration with a particular college. Neither pre-majors nor study-tracks are protected by the Comprehensive Articulation Agreement other than as the agreement protects the General Education Core requirements and the AA or AS degree. These pre-majors/ study tracks are available online at Virtual Transfer Center.

Pre-Majors—A.A.	Pre-Majors—A.S.	Study Tracks
Anthropology	Biology , Biology Education	AA On-Line
Art Education	Chemistry and Chemistry Education	Biopharmaceutical at NCCU—BRITE (AS)
