

ASSOCIATE IN ARTS

Study Track: ANTHROPOLOGY

The faculty at Durham Tech recommend the following list of courses for students who are considering a career in Anthropology. It is to be used as a blueprint for guiding students interested in majoring in anthropology in the selection of their courses. Students who successfully complete this course of study and who meet the requirements for admission to the university may be eligible to apply for admission to the major with junior standing. **This agreement is meant as a guide and the student should not assume that it addresses unique requirements set by his or her university of choice. It is the student's responsibility to become aware of individual requirements of the senior institution and to make course substitutions as warranted, within the requirements of the AA Plan-of-Study.**

See your advisor for further details.

Students should be aware that universities look more favorably on those who have completed the General Education Core (44 hours defined on the first page of this agreement) or the Associate in Arts or Associate in Science degree (64 hours). Most universities allow, at most, 64 hours of credit to transfer. However, there are situations where more than 64 hours can be completed at the community college. Please consult with an advisor to find out what those situations are.
