GEO 111
WORLD REGIONAL GEOGRAPHY

COURSE DESCRIPTION:

Prerequisites: ENG 090 and RED 090 or DRE 098; or satisfactory score on placement test
Corequisites: None

This course introduces the regional concept which emphasizes the spatial association of people
and their environment. Emphasis is on the physical, cultural, and economic systems that interact
to produce the distinct regions of the earth. Upon completion, students should be able to describe
variations in physical and cultural features of a region and demonstrate an understanding of their
functional relationships. This course has been approved to satisfy the Comprehensive
Articulation Agreement for the general education core requirement in social/behavioral
sciences. Course Hours Per Week: Class, 3. Semester Hours Credit, 3.

LEARNING OUTCOMES:

Upon successful completion of the course, students will be able to:

a) Understand and apply four key concepts – location, place, link, and region – to geographical
issues of spatial organization.

b) Understand the language of maps – scale, projection, symbolization – and map types –
reference & thematic – for use in problems of spatial analyses.

c) Understand and use basic ideas about basic physical-human processes that interact
geographically in the world: environmental settings, population and settlement, cultural
patterns, geopolitical frameworks, economic and social development.

d) Apply these concepts and understandings to describe and analyze the basic physical and
human characteristics of a region.

e) Examine the global consequences of the basic physical-human geographic forces while
understanding persistent geographic diversity.

OUTLINE OF INSTRUCTION:

I. Four cornerstones of geographic understanding
   A. Location – absolute and relative
   B. Place – site and situation
   C. Link – natural, human, time-space convergence
   D. Region- formal, functional, vernacular

II. Physical & human processes that shape world regions
   A. Physical – solar energy, latitude, land/water interactions, pressure systems, wind patterns
      1) Climate
2) Biomes
3) Environmental challenges

B. Human
1) Cultural coherence and diversity – language, religion, ethnicity
2) Population – growth, migration, settlement
3) Geopolitics – nation states, boundaries and frontiers, international organizations
4) Economic and social development – processes and indicators

III. Mapping
A. Language of maps
   1) Scale
   2) Projection
   3) Symbols
B. Types & uses
   1) Reference map
   2) Thematic maps

IV. Regional geographic profiles – each region studied is profiled by means of the prominent environmental, cultural, demographic political and developmental characteristics that give that region its dimensions, it individuality, and its cohesion.

V. World regions of study and their focal points
A. Coreland Europe – relative location, industrial development, unity vs. diversity
B. Former Soviet Union – effects of history, political upheaval, & climate
C. The Middle East – culture hearths, diffusion, political conflict, effects of dryness
D. India – large population vs. sustainable resource and economic base
E. China – effects of environmental manipulations; social and economic development
F. Sub-Saharan Africa – natural barriers, colonial legacies, medical geography
G. Latin America – Mexico & Brazil: global economy & environmental challenges
H. North America – water resources, industrial location, and urban sprawl

REQUIRED TEXTBOOK AND MATERIALS:

To be selected by the Instructor/Discipline Chair.

STATEMENT FOR STUDENTS WITH DISABILITIES:

Students who require academic accommodations due to any physical, psychological, or learning disability are encouraged to request assistance from a disability services counselor within the first two weeks of class. Likewise, students who potentially require emergency medical attention due to any chronic health condition are encouraged to disclose this information to a disability services counselor within the first two weeks of class. Counselors can be contacted by calling 536-7207, ext. 1413 or by visiting the Student Development Office in the Phail Wynn Jr. Student Services Center, room 1309.
