Waiving of Foreign Language Requirement

Students who are bilingual may substitute six hours of other humanities courses for the required six hours of foreign language. They must submit, in writing, an email request to the Dean of University Transfer, Dr. Thomas Gould, for this substitution and they must validate their knowledge of two languages.

Waiving of Foreign Language Lab Requirement

Students in the AA program of study must complete a two-sequence course of study in Foreign Language for a total of six semester hours of credit. Lab hours for these courses count as elective credit toward graduation.

Students in the AS program of study must complete a second level foreign language totaling 3 semester hours of credit. Any first-level foreign language or lab hours are counted as electives.

Students who transfer in the requisite foreign language courses from other community colleges, but who were not required to take the accompanying lab will not need to take that lab at Durham Tech. The labs requirement will be waived.
