Need more information?
Based on the results of your questionnaire, here are some recommendations you might consider to help you have a successful first semester:

- **Attend a ConnectSession (orientation.)**
  ConnectSessions cover the basic information every new student needs to know about advising, registration, resources, etc. Visit the Information Desk in the Wynn Center or online at [www.durhamtech.edu](http://www.durhamtech.edu) for dates and times.

- **Take the Placement Test.**
  If this is your first time attending college you will need to complete the placement test. The results of the placement test will place you in classes that best meet your needs. If you have attended another college, you may submit your transcripts to the admissions office for transfer credit evaluation, but you may still need to complete the placement test. Placement testing information and schedule is available online at [http://www.durhamtech.edu/html/prospective/admissions/assetschedule.htm](http://www.durhamtech.edu/html/prospective/admissions/assetschedule.htm) Please note that all health technology programs require prospective students to take the placement test. If you have completed the SAT with a score of 500 or higher on all sections, the ACT with a score of 20 or higher, or the Compass or Asset placement test at another college, you may submit your scores for evaluation. Contact the Testing Center for more information.

- **Check out Durham Tech’s Website.**
  Online you will find information about clubs and organizations, bookstore hours, campus map, and so much more! [www.durhamtech.edu](http://www.durhamtech.edu)

- **Take ACA 111 (Career Program Students) or ACA 122 (University Transfer Students).**
  ACA 111/College Student Success is for students interested in a career program at Durham Tech. The course covers campus resources, study skills, and career or academic planning. ACA 122/College Transfer Success is for students interested in an Associates in Arts or Associate in Science degree. The course covers effective learning strategies as well as adjusting to a college culture and transferring smoothly to a four-year university. Look in the course schedule online or in print for ACA 111 and ACA 122 course offerings.

- **Get your Student ID Card.**
  After you have paid your tuition and fees, visit the Campus Police and Public Safety office in Building 8 to get your student ID card. Students should have the ID with them at all times when on campus. It’s also your Library card. Get your ID soon.

- **Get a parking decal.**
  After you have paid your tuition and fees, register your vehicle and get a parking decal in Building 8 on the Main Campus.

- **Learn more about Financial Aid.**
  Visit the Financial Aid Office in the Wynn Center, room 1209A or call 919-536-7209. Apply for aid online at [www.fafsa.ed.gov](http://www.fafsa.ed.gov). If you are a single parent, ask about the Single Parent program.

- **Make an appointment with a counselor.**
  Visit the Counseling Office in the Wynn Center, room 1309 or call 919-536-7207 to schedule an appointment for career counseling, personal concerns, disability services, or other support.

- **Try tutoring services.**
  Visit the Campus Learning Center in the Wynn Center, room 1310 or call 919-536-7232 to learn about the free services available to students.

- **Investigate community childcare options.**
  The Durham Childcare Services Association maintains an updated listing of childcare options in our area. Call (919) 403-6950 or visit [http://www.childcareservices.org](http://www.childcareservices.org) online for more information.
