STUDENT EXCELLENCE

Academic Excellence Award

Max Carpenter

Maxfield “Max” Carpenter has been named the recipient of the Durham Tech 2020 Academic Excellence Award, which recognizes outstanding academic achievements at the community college level.

One student from each of the 58 North Carolina community colleges is awarded the honor.

Max is earning his Associate in Information Technology and Clouds Systems Administration.

His ultimate career goal is to oversee an I.T. department for a medium to large size company in the Triangle.

“My time at Durham Tech has been one of the most impactful learning experiences of my life. I cannot wait to see what the future holds and will never forget how Durham Tech made it possible.”

Governor Robert W. Scott Leadership Award Nominee

Shelbie Chervinko

Durham Tech has nominated Shelbie Chervinko for the 2020 Governor Robert W. Scott Leadership Award. Shelbie has a passion for service and social justice, and is very active with the Center for College and Community Service. She’s participated in Alternative Service Break trips, where she served as team leader, and is an active volunteer on campus and in the community.

Shelbie is pursuing an Associate Degree in Nursing at Durham Tech and wants to become an emergency department nurse. Later, she wants to earn her Master’s Degree in Nursing from UNC-Chapel Hill and become a nurse educator.

“Thank you to Durham Tech, Dr. Ingram, and the Center for College and Community Service for having these types of opportunities available to students like myself on campus. Each opportunity to lead has given me a chance to make new friendships, meet other volunteers who are just passionate about serving a social justice issues as I am, and to better my campus and community.”

Dallas Herring Award Nominee & Christine Kelly-Kleese & Tony Kleese Resilience Award

Alexis McClernon

Durham Tech has nominated Alexis McClernon for the 2020 Dallas Herring Achievement Award. She is earning an Associate in Arts while working working two jobs as Head Lifeguard/Lifeguard Instructor at Duke University and the Director of Pool Operations at Umstead Pines Golf and Swing Club.

Growing up in an unstable environment and later struggling with her own addictions and mental health, she decided to pursue a career as a Correctional Psychologist so she can help others.

“With the help of my supportive family, motivating friends, inspirational significant other, community of peers both at work and of course the incredible professors and staff at Durham Tech, my dreams have revolutionized into reality and I hope to one day give back the opportunities that were given to me.”

A MESSAGE FROM THE PRESIDENT

2020 Durham Tech Graduates,

In my 36 years at Durham Tech, I've never been more proud of a graduating class. You've overcome unthinkable obstacles in completing your education, and you are facing an uncertain future. But I know you are ready for that future because of the skills you've developed while at Durham Tech—resilience, adaptability, and resourcefulness.

You are joining a group that forms the backbone of our region—Durham Tech alumni. I look forward to seeing you continue to do great things for yourselves, your families, and our community.

Congratulations!

Bill Ingram, President

Regalia

The tradition of academic regalia goes back several centuries. Most of the earliest educators or teachers throughout Europe were Roman Catholic monks. The academic robes or gowns worn today represent and resemble the long black or brown cassocks and hoods worn by those monks. Since the doctoral degree is the highest award, faculty who have earned the doctoral degree will wear the most elaborate regalia. The gowns are generally black but also may be other colors. Doctoral robes are decorated with three to four broad velvet stripes on the flowing sleeves and front panels. The hats, called mortarboards, are generally a flat, nine-inch, fabric-covered square attached to a cap that fits snugly on the head. Mortarboards are typically adorned with gold tassels. Some faculty may wear a cap or beret instead of the mortarboard. Both the color of the gown and the style of the headwear are determined by the college or university from which the person earned the degree.

Notice that the doctoral faculty also wear hoods. The hoods are the long multicolored fabric pieces worn from the neck and hanging down the back. The academic hoods are modeled on the hoods worn by monks. If you can visualize a monk dressed in his cassock, you may also see a hood pushed back from his head and resting on his shoulders or back. The hoods have much symbolism in their colors. The wide velvet border can be a number of different colors, each representing a different academic discipline. For example, those with degrees in business administration wear brown velvet. The hood also has a two-color chevron made of silk. These colors are the colors of the college or university where the degree was earned. For example, graduates of the University of North Carolina at Chapel Hill have sky blue and white chevrons.

Faculty members with master's degrees wear black gowns with long panels extended from the sleeves. They also wear hoods that represent their academic disciplines and their alma maters. Faculty holding bachelor's degrees wear black robes with shorter sleeves. They too wear mortarboards and may wear hoods.

As Durham Technical Community College students enter the room, their tassels are all on the right side of their mortarboards. Once their degrees are conferred, they will be asked to switch their tassels to the left. Tassels are worn on the left side of the mortarboards for those who have graduated.

Do great things.
