according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 12.27.2014

### **Barium Hydroxide**

SECTION 1 : Identification of the substance/mixture and of the supplier		
Product name :	Barium Hydroxide	
Manufacturer/Supplier Trade name:		
Manufacturer/Supplier Article number:	S25188	
Recommended uses of the product and uses res	strictions on use:	
Manufacturer Details:		
AquaPhoenix Scientific		
9 Barnhart Drive, Hanover, PA 17331		
Supplier Details:		
Fisher Science Education		

15 Jet View Drive, Rochester, NY 14624

# **Emergency telephone number:**

Fisher Science Education Emergency Telephone No.: 800-535-5053

# **SECTION 2 : Hazards identification**

# Classification of the substance or mixture:

Irritant Acute toxicity (oral, dermal, inhalation), category 4

**Corrosive** Skin corrosion, category 1B Serious eye damage, category 1

Acute toxicity , Oral ( Category 4 ), H302 Acute toxicity , Inhalation ( Category 4 ), H332 Skin corrosion ( Category 1B ), H314 Serious eye damage ( Category 1 ), H318

Signal word : Danger

# Hazard statements:

Harmful if swallowed Harmful if inhaled Causes serious eye damage Causes severe skin burns and eye damage **Precautionary statements**: Do not breathe dust/fume/gas/mist/vapours/spray Avoid breathing dust/fume/gas/mist/vapours/spray Wash ... thoroughly after handling Do not eat, drink or smoke when using this product Use only outdoors or in a well-ventilated area Wear protective gloves/protective clothing/eye protection/face protection Immediately call a POISON CENTER or doctor/physician Call a POISON CENTER or doctor/physician if you feel unwell Rinse mouth Page 1 of 7

according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 12.27.2014

Page 2 of 7

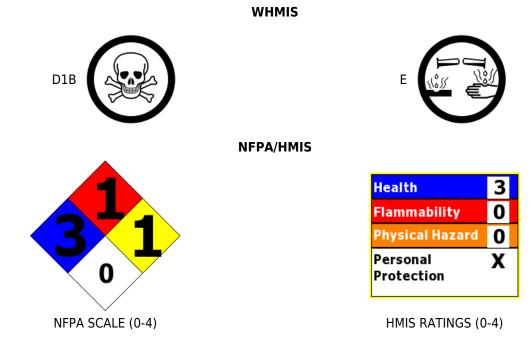

## **Barium Hydroxide**

Specific treatment (see ... on this label) Wash contaminated clothing before reuse IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower Store locked up Dispose of contents/container to ...

**Combustible Dust Hazard: :** 

May form combustible dust concentrations in air (during processing).

# **Other Non-GHS Classification**:

# **SECTION 3 : Composition/information on ingredients**

Ingredients:		
CAS 12230-71-6	Barium Hydroxide Octahydrate	>95 %
CAS 7194 - 00 - 2	Barium Hydroxide	<5 %
	Percent	ages are by weight

# SECTION 4 : First aid measures

# **Description of first aid measures**

**After inhalation:** Move exposed individual to fresh air. Loosen clothing as necessary and position individual in a comfortable position. Seek medical advice if discomfort or irritation persists. If breathing difficult, give oxygen.

**After skin contact:** Wash affected area with soap and water. Rinse/flush exposed skin gently using water for 15-20 minutes. Seek medical advice if discomfort or irritation persists.

**After eye contact:** Protect unexposed eye. Rinse/flush exposed eye(s) gently using water for 15-20 minutes. Remove contact lens(es) if able to do so during rinsing. Seek medical attention if irritation persists or if

Effective date : 12.27.2014

# Barium Hydroxide

## concerned.

**After swallowing:** Rinse mouth thoroughly. Do not induce vomiting. Have exposed individual drink sips of water. Seek medical attention if irritation, discomfort or vomiting persists.

## Most important symptoms and effects, both acute and delayed:

Irritation, Nausea, Headache, Shortness of breath.;

## Indication of any immediate medical attention and special treatment needed:

If seeking medical attention, provide SDS document to physician.

### SECTION 5 : Firefighting measures

## **Extinguishing media**

**Suitable extinguishing agents:** If in laboratory setting, follow laboratory fire suppression procedures. Use appropriate fire suppression agents for adjacent combustible materials or sources of ignition. Use water, dry chemical, chemical foam, carbon dioxide, or alcohol-resistant foam.

For safety reasons unsuitable extinguishing agents:

### Special hazards arising from the substance or mixture:

Combustion products may include carbon oxides or other toxic vapors. Thermal decomposition can lead to release of irritating gases and vapors. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Hazards Not Otherwise Classified - Combustible Dust

### Advice for firefighters:

Protective equipment: Use NIOSH-approved respiratory protection/breathing apparatus.

**Additional information (precautions):** Move product containers away from fire or keep cool with water spray as a protective measure, where feasible.Use spark-proof tools and explosion-proof equipment.

# **SECTION 6 : Accidental release measures**

### Personal precautions, protective equipment and emergency procedures:

Wear protective equipment. Transfer to a disposal or recovery container.Use spark-proof tools and explosionproof equipment.Use respiratory protective device against the effects of fumes/dust/aerosol. Ensure adequate ventilation.Keep away from ignition sources. Protect from heat.Stop the spill, if possible. Contain spilled material by diking or using inert absorbent.

## **Environmental precautions:**

Prevent from reaching drains, sewer or waterway. Collect contaminated soil for characterization per Section 13

## Methods and material for containment and cleaning up:

If in a laboratory setting, follow Chemical Hygiene Plan procedures.Place into properly labeled containers for recovery or disposal. If necessary, use trained response staff/contractor.Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Collect solids in powder form using vacuum with (HEPA filter)

## **Reference to other sections:**

## SECTION 7 : Handling and storage

# Precautions for safe handling:

Minimize dust generation and accumulation. Wash hands after handling. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Do not eat, drink, smoke, or use personal products when handling chemical

#### **Barium Hydroxide**

substances. If in a laboratory setting, follow Chemical Hygiene Plan.Use only in well ventilated areas.Avoid contact with eyes, skin, and clothing.

# Conditions for safe storage, including any incompatibilities:

Store in a cool location. Provide ventilation for containers. Avoid storage near extreme heat, ignition sources or open flame. Store away from foodstuffs. Store away from oxidizing agents.Keep container tightly sealed.Store with like hazards

## **SECTION 8 : Exposure controls/personal protection**

# SECTION 9 : Physical and chemical properties

Appearance (physical state,color):	White solid	Explosion limit lower: Explosion limit upper:	Not Determined Not Determined
Odor:	Odorless	Vapor pressure:	Not Determined
Odor threshold:	Not Determined	Vapor density:	Not Determined

according to 29CFR1910/1200 and GHS Rev. 3

**Effective date** : 12.27.2014

# Barium Hydroxide

pH-value:	Not Determined	Relative density:	2.180
Melting/Freezing point:	78C	Solubilities:	ND = Not Determined. N/A = Not Applicable. Material is water soluble.
Boiling point/Boiling range:	Not Determined	Partition coefficient (n- octanol/water):	Not Determined
Flash point (closed cup):	Not Determined	Auto/Self-ignition temperature:	Not Determined
Evaporation rate:	Not Determined	Decomposition temperature:	Not Determined
Flammability (solid,gaseous):	Not Determined	Viscosity:	a. Kinematic:Not Determined b. Dynamic: Not Determined
Density: Not Determined			

# **SECTION 10 : Stability and reactivity**

**Reactivity:**Nonreactive under normal conditions.

**Chemical stability:**No decomposition if used and stored according to specifications.

Possible hazardous reactions:

**Conditions to avoid:**Store away from oxidizing agents, strong acids or bases.exposure to air.incomplete products.Incompatible Materials.

Incompatible materials: Strong acids. Strong bases. Metals, acids.

Hazardous decomposition products: Carbon oxides (CO, CO2). Barium oxide

# **SECTION 11 : Toxicological information**

Acute Toxicity:			
Oral:	308 mg/kg	LD50 orl - rat:	
Chronic Toxicity: No additional information.			
Corrosion Irritation: No additional information.			
Sensitization:		No additional information.	
Single Target Organ (STOT):		No additional information.	
Numerical Measures:		No additional information.	
Carcinogenicity:		No additional information.	
Mutagenicity:		No additional information.	
Reproductive Toxicity:		No additional information.	

# **SECTION 12 : Ecological information**

Ecotoxicity Persistence and degradability: Readily degradable in the environment. Bioaccumulative potential: Mobility in soil: Other adverse effects: **Effective date** : 12.27.2014

# **Barium Hydroxide**

# SECTION 13 : Disposal considerations

### Waste disposal recommendations:

Product/containers must not be disposed together with household garbage. Do not allow product to reach sewage system or open water. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Consult federal state/ provincial and local regulations regarding the proper disposal of waste material that may incorporate some amount of this product.

## **SECTION 14 : Transport information**

### **UN-Number**

3262

# UN proper shipping name

Corrosive solid, basic, inorganic, n.o.s. (Barium hydroxide)

# Transport hazard class(es)

8 Corrosive substances

Packing group:
Environmental hazard:
Transport in bulk:
Special precautions for user:

## **SECTION 15 : Regulatory information**

## United States (USA)

SARA Section 311/312 (Specific toxic chemical listings):

Acute, Chronic

### SARA Section 313 (Specific toxic chemical listings):

12230-71-6 Barium Hydroxide

#### RCRA (hazardous waste code):

None of the ingredients is listed

### TSCA (Toxic Substances Control Act):

All ingredients are listed.

### CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act):

None of the ingredients is listed

## Proposition 65 (California):

# Chemicals known to cause cancer:

None of the ingredients is listed

### Chemicals known to cause reproductive toxicity for females:

None of the ingredients is listed

# Chemicals known to cause reproductive toxicity for males:

None of the ingredients is listed

#### Chemicals known to cause developmental toxicity:

None of the ingredients is listed

Effective date : 12.27.2014

## **Barium Hydroxide**

## Canada

## Canadian Domestic Substances List (DSL):

All ingredients are listed.

# Canadian NPRI Ingredient Disclosure list (limit 0.1%):

None of the ingredients is listed

# Canadian NPRI Ingredient Disclosure list (limit 1%):

None of the ingredients is listed

# **SECTION 16 : Other information**

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations.Note:. The responsibility to provide a safe workplace remains with the user.The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment.The information contained herein is, to the best of our knowledge and belief, accurate.However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material.It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.
